BEYOND BASIC DESIGN

"Buildings are not abstract, meaningless constructions, or aesthetic compositions, they are extensions and shelters of our bodies, memories, identities and minds. Consequently, architecture arises from existentially true confrontations, experiences, recollections and aspirations". - Pallasma

Pradnya Chauhan will present a detailed analysis of elements, design principles, proportions, inspirations and theory and studio projects based on these topics. Creating linkages between Basic Design and other design disciplines is the integral part of learning Basic Design. Building bridges in allied designs like Interior Design, Landscape Design, and Streetscape Design will be explored by Biju Kuriakose, Ajay Ssharma, Minaz Ansari, and Shruti Barve. Biju Kuriakose will focus on the process, methods and tools that would help one to think and allow the design to evolve. Pradnya Chauhan has designed numerous Basic Design Studio exercises and young architects have explored these and worked on some of the exercises. They will be presenting their work and discuss their projects. She will assign basic design studio projects to the participants everyday which will be evaluated by the team.
